Summary Report

ADC-2102: Good Clinical Practice

Good clinical practice (GCP) training is essential for medical graduates to uphold ethical standards and ensure the safety and well-being of patients participating in clinical trials and research studies. GCP training equips medical professionals with the knowledge and skills to conduct trials ethically, maintain data integrity, and adhere to regulatory requirements. Understanding GCP principles is crucial for ensuring the validity and reliability of research findings. Effective communication is paramount in GCP, as medical professionals must clearly convey trial protocols and risks to participants while fostering trust and transparency. GCP training cultivates resilience by preparing professionals to navigate complex ethical dilemmas and challenges inherent in clinical research. It emphasizes the importance of collaboration among multidisciplinary teams to uphold the highest standards of patient care and research integrity. Ultimately, GCP training strengthens the foundation of clinical research and enhances the credibility of medical professionals, ensuring they are well-prepared to uphold ethical standards and conduct rigorous research in their respective fields. The Key resource person for this course was Dr Somnath Professor and HOD in the Department of pharmacology at MRIMS, with support from Dr. jamuna, professor and Dr. rohith, associate Professor in the same department, the course provided a comprehensive overview of planning and execution

The Program was conducted on 5.7.2021 to 9.7.2021 at Lecture Hall, Ground Floor, Academic Block, MRIMS, Hyderabad for 75 students of IV MBBS(2018 batch)for 30 hours
