Summary Report

VM21: Music in Health & Disease

Music in health and disease empower medical graduates with a broader skill set and perspective, enabling them to offer more comprehensive and patient-centred care while also supporting their own well-being in the demanding field of healthcare. Music workshops provide insights into integrative medicine approaches, emphasizing the role of non-pharmacological interventions in patient care. This broadens graduates' perspectives beyond traditional medical practices. Learning about the therapeutic use of music enhances graduates' ability to connect with patients on a deeper level, fostering empathy and trust. They become better equipped to understand patients' experiences and incorporate their preferences into treatment plans.

The key resource person for this course was Dr Ramani, Academic Dean, Professor Department of Pathology MRIMS and she was supported by Dr Vidya, Professor, Department of Paediatric, MRIMS. Both the resource persons have used music therapy with patients for improving their disease status

The program was conducted on 6.10.2021 to 8.10.2021 Lecture Hall, Ground Floor Academic Block, MRIMS for IIMBBS(2020 batch) & I Year Post Graduates for 16 hours.
