Malla Reddy Institute of Medical Sciences, Suraram, Hyderabad, has been established by the well known Sri. Chamakura Malla Reddy, who was recently elected to Lok Sabha from the Malkajgiri Constituency. This medical college is well staffed with highly experienced faculty members teaching the students. The Chairman and Founder, Sri. Malla Reddy gives full encouragement and freedom to the teachers to organize regular academic programmes. This college is approved by the Medical Council of India..

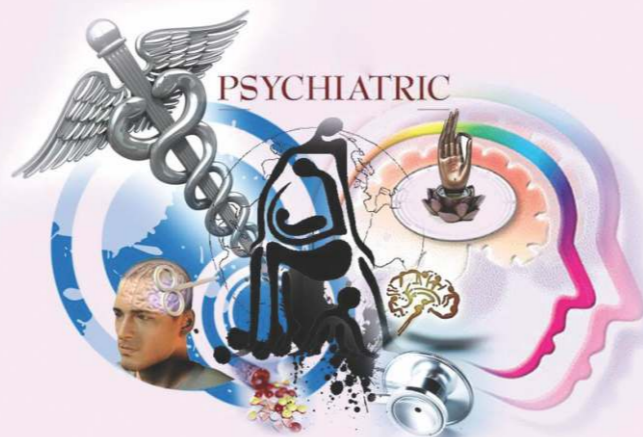

Organic Psychiatry is the subject that deals with psychiatric symptoms that are secondary to physical disorders. Simple examples include depression and anxiety in Diabetes Mellitus; Psychosis or Depression in Thyroid dysfunctions, B12 deficiency etc.,

A less commonly discussed subject is Occult Carcinoma presenting as a typical case of Depression. Carcinoma Head of the Pancreas is notorious for this.

Many youngsters have lost their lives after an apparently harmless fall from a motorcycle because the Casualty Medical Officer erroneously inferred the symptoms of slurring speech and the ataxic gait to be that of drunkenness and sent the patient away with first aid. The young patient does not wake up the next day. Had the CMO been sensitized to the subject of extradural hematoma, many such lives could have been saved with timely intervention.

These problems fall in the gray area and stand the risk of being overlooked by the Physician, as well as the Psychiatrist. Both need to sensitize each other about the other side of the coin. This is the basic aim of this one day CME programme.

Organising Chairman  
**Dr. Dr.Prabhakar Korada**, DNB (Psychiatry)  
Professor & HOD, Dept. of Psychiatry,  
Malla Reddy Institute of Medical Sciences  
Ph:9848023347
