REPORT OF THE EVENT

Human Value Development- EXPERIENCING THE LIFE WITH DISABLED CHILDREN

COURSE OBJECTIVES:

The main objective of the program is to enlighten students about the struggle those children face and how we can help them by showing them understanding and patience when they struggle in doing regular activities. Give them more time to make transitions and follow directions. Many activities and tasks can be tough for some children with disabilities. You need to keep patience to understand when they are in trouble. Assume what they are trying to say

Human Value Development- ETHICS AND LAW IN MEDICAL PRACTICE

COURSE OBJECTIVES:

Upholding ethical standards is essential for ensuring patient well-being, promoting fair treatment, and maintaining the reputation of medical practitioners. The core issues in medical ethics are doctor-patient relationship, patient's confidentiality, and the need to obtain informed consent. Although law and ethics have similarities, law may be better defined as the sum total of rules and regulations by which a society is governed.
